Challenger - manager

Service and Extended Warranty Plans

Fixing the cost of your Future

Financial security with a fixed cost manager Service Plan

manager

The benefits of running a regularly serviced machine are indisputable! You are guaranteed the maximised performance and continuous reliability you expect from your equipment. Now the Challenger **manager** Service Plan takes this guarantee to the next level. By taking out a personalised Service Plan, you can not only extend this peace of mind into the future, but you can also fix tomorrow's costs today! For a fixed cost at the time of purchase, a Service Plan offers you the financial certainty of a machine at peak performance for the period of your choosing.

Your Personalised Service Plan

manager Service Plans are available for both new and used Challenger equipment, and each plan is individually tailored to the exact specification of your machine and to your unique operational requirements up to 10,000 hours. Professional servicing is carried out by the expert technicians at your local Challenger dealer and your equipment is comprehensively serviced according to the

manufacturer's recommended intervals. Your dealer can discuss your precise servicing requirements with you, after which you will receive a detailed quotation showing you the extensive breakdown of each service, as well as providing you with known servicing costs.

Let **manager** manage your servicing, so you can manage your business!

Benefits of your manager Service Plan

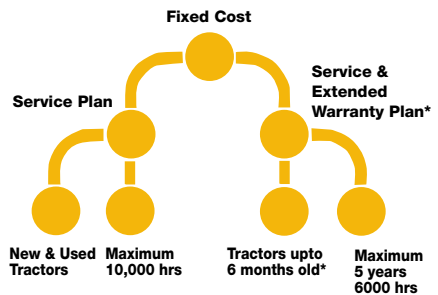

- Fully flexible and personalised to your unique operational requirements
- Truly comprehensive servicing for guaranteed productivity and reliability
- The financial certainty of fixed servicing costs for the period of your choosing
- Timely service planning and administration for your peace of mind
