

LISTER WILDER

Keep your cool this summer

There is nothing like the cool breeze from an air conditioning system to keep you alert on the long, hot summer days. And there is nothing more frustrating than an inefficient, ineffective system to make your blood boil!

Our service departments are ready to service and recharge your air conditioning units so contact your closest branch and get ready for a long cool summer.

Don't have air conditioning?

Just because your machine was produced without factory fitted air conditioning, it doesn't mean you have to miss out. We offer a range of retro fit systems designed to fit your MF tractor and combine, just ask us for a quotation.
