# Your renovation partner for hired in machinery

**Hire from**  
**£180**  
per day

**BARONESS**  
Quality of Demand

**FS900**

A ride-on core and debris collector which is revolutionising renovations on golf courses and other fine turf areas. It is extremely manoeuvrable, compact and able to pick up cores, scarification debris or even both at the same time.

Working width	525mm
Working depth	0 - 40mm
Engine	Honda 23HP

**Hire from**  
**£194**  
per day

**Redexim**

**CC1200 HL**

The CC1200 HL is a pedestrian machine which collects cores and debris into a hopper that empties hydraulically, saving many hours in what has historically been a labour intensive operation – This machine is commonly hired with our Toro Pro-Core.

Working width	1200mm
Weight	573kg
Engine	13HP

**Hire from**  
**£115**  
per day

**Redexim**

**Rink DS3100**

The DS3100 has a large hopper capacity of 3.1m³. The internal conveyor belt moves material to the rear where it is dropped onto discs for spreading up to 12m. An automatic rear gate opens and closes to prevent material dropping in transit

Working width	Up to 12000mm
Hopper capacity	3.1m³
Operation	Towed version

**Hire from**  
**£120**  
per day

**Redexim**

**Rink DS 800**

No waste is lost from this top dresser since the release gate closes automatically when the dual belts are stopped. Plus the spinner disks have been designed in a way that they will handle wet material very well.

Spreading width	up to 12m
Tractor required	20HP min
Capacity	0.76m³

**Hire from**  
**£156**  
per day

**Redexim**

**DS 1200**

The Redexim DS 1200 Top Dresser has dual spinners with a spread pattern variable up to 30 feet (10 meters). The operation of the belt and spinners can be done from the tractor seat, by switching the hydraulic lever.

Spreading width	up to 12m
Tractor required	25HP min
Capacity	1.2m³

**Hire from**  
**£104**  
per day

**Redexim**

**Speedbrush**

The Redexim Speedbrush has two round brushes which rotate opposite to the direction of travel. These brushes effectively brush sand into the aeration holes or redistribute them to infill into an artificial turf playing surface.

Working width	140cm
Tractor required	10HP min
Weight	181kg

**Hire from**  
**£168**  
per day

**imants**

**RootPruner**

Pruning roots up to 100mm in diameter with no clean up, it can also prevent roots under vital areas, eliminating loss of water and nutrients plus stopping surface damage. It can decompact tight, narrow areas easily.

Working width	0.60m
Working depth	250mm
Tractor required	540 PTO

**Hire from**  
**£238**  
per day

**Redexim**

**Verti-Drain 2519**

The Redexim Verti-Drain 2519 Aerator is considered the next generation of high-speed and high-productivity aerators. This versatile and agile piece of kit makes it a popular choice for all year-round operation.

Working width	1.95m
Working depth	250mm
Tractor required	60HP

**Hire from**  
**£198**  
per day

**Redexim**

**OxyShot**

The Redexim OxyShot Air-Injection Unit is the ideal tool in the armoury of the Greenkeeper and Groundsman for troublesome areas such as bunkers, walkways, greens and around tree roots, injecting life giving air into the soil.

Weight	314kg
Working depth	500mm
Tractor required	40HP

**Hire from**  
**£186**  
per day

**TORO**

**ProCore 648**

From the innovative wheels within the coring path, to the large 122cm aeration swath, there's nothing ordinary about the ProCore® 648 pedestrian aerator. Years of research went into making the most productive and efficient walking aerator.

Working width	1.2m
Working depth	10.2cm
Engine	23HP

**Hire from**  
**£212**  
per day

**Redexim**

**Verti-Drain 7215**

The 7215 boasts a working width of 61" and can aerate up to 10" maximum, making for greater productivity when fit to a 25hp tractor. The 7215 offers reinforced front and rear rollers, as well as a lighter frame.

Working width	1.56m
Working depth	250mm
Tractor required	25HP

**Hire from**  
**£129**  
per day

**Redexim**

**Verti-Drain 7416**

The 7416 incorporates the technology of the second-generation Verti-Drain line with new and improved features which include a new angle adjustment up to 25 degrees. The 7416 is lighter weight and so can be used with smaller tractors.

Working width	1.6m
Working depth	14"
Tractor required	50HP

**Hire from**  
**£227**  
per day

**Redexim**

**Verti-Drain 7521**

The Verti-Drain 75 Series incorporates all the innovative technology of the second generation Verti-Drain line. This makes it the first choice for anyone looking for a full 16" deep penetration and high productivity up to 49,800 square feet p/h.

Working width	1.6m
Disc spacing	35mm
Capacity	36 litres

**Hire from**  
**£236**  
per day

**Redexim**

**Verti-Quake 2516**

This Aerator comes with blades which cut cleanly and neatly through the soil. These blades cutting through the soil creates a wave action that shatters any build up of compacted areas and opens up the subsoil.

Working width	1.6m
Working depth	250mm
Number of knives	18

**Hire from**  
**£154**  
per day

**Redexim**

**1275 OverSeeder**

The Redexim 1275 OverSeeder is not only is it the fastest OverSeeder, it is also the most effective. It actually buries the seed up to 20mm deep in the ground, safe from the beaks of hungry birds and out of the way of the wind.

Working width	1.2m
Working depth	Max 20mm
Engine	31HP

Delivery charges apply, quotations available upon request. Hire prices shown above are based on per day for a minimum of one week hire. Please call for alternative reduced periods of hire if required. There will be an additional cost if a tractor is needed. The Ryetec P1600 is also available with scarifying knives. Note: scarifying knives will require an extra charge.

Hire from  
**£154**  
per day

### 1500 Speedseed

The Redexim 1500 Speedseed seeder machines offer everything all in one. In other words, by using the same accurate means this single machine produces thousands of holes, delivers the seed and brushes in all in one.

Working width	1500mm
Working depth	Up to 20mm
Tractor required	35HP

Hire from  
**£104**  
per day

### 1575 OverSeeder

The OverSeeder has been completely redesigned, making it the fastest, most versatile and efficient version to date. With it's innovative unequal disc slitting system, the OverSeeder actually plants the seed firmly in the ground.

Working width	1500mm
Spacing	75mm
Weight	665kg

Hire from  
**£300**  
per day

### 216

The Vredo 216 trailed double row spacing seeding machine is capable of depositing fine grass seed such as Bentgrass (Agrostis) at a precise quantity (>3gr/m<sup>2</sup>) and depth (3/4mm) in the turf providing excellent surface all year round.

Working width	1.6m
Spacing	35mm
Capacity	36 litres

Hire from  
**£112**  
per day

### Cultipack

This Seeder has a world renowned reputation for it's well proven seeding system. The front notched ring rollers crush lumps, making small pockets in the soil and the seed is spread accurately across the full width of the machine.

Working width	91cm
Engine	Honda
Capacity	55 litres

Hire from  
**£194**  
per day

### P1600

High performance flail mower & scarifier collectors designed for the professional user, ideal for sports fields, golf courses and high quality grass areas where a high standard of finish is required. These machine are also ideal for leaf collection.

Working width	1.6m
Weight	530kg
Capacity	1.3m <sup>3</sup>

Hire from  
**£88**  
per day

### AutoRake MK5

The SISIS AutoRake MK5 Scarifier is ideally suited to a range of applications from sports field maintenance to synthetic turf maintenance, lawns and amenities. It can be used for a range of applications and venues.

Working width	1.6m
Disc spacing	35mm
Capacity	36 litres
