

Course information

Land Based Service Engineer Level 3

You will learn a wide variety of skills such as how to service and repair machines and equipment, including replacing parts and calibrating instruments. You'll study everything from basic engineering skills to the latest technological advancements in electro-hydraulics and computerised control systems.

Course length

48 months - with approximately 33 weeks in college on a block release system.

The first 3 years will be delivered at Reaseheath College. Following this course continual technical training will be delivered at Kubota's training centre. The final award will lead to the full Kubota Diploma in Construction Engineering.

Entry requirements

Functional skills Maths and English.

Qualifications gained

You will receive a range of qualifications as part of your learning programme. These include:

- Land Based Service Engineer Level 3
- Essential skills in Numeracy & Literacy (if required)
- Abrasive wheels certificate

Kubota Parts and Service
Reliability > for the Job Ahead

Next steps

On completion of the Level 3 apprenticeship you will receive a gold CSCS Advanced Craft card.

A Kubota Apprenticeship Scheme is a partnership between Kubota and Reaseheath College. This industry approved training content is designed to allow young construction plant engineers to progress into positions within Kubota dealerships across the UK.

For Earth, For Life
Kubota

Why should I apply?

A Kubota apprenticeship is an opportunity to be part of the future of construction engineering and “earn while you learn”.

By successfully completing a Kubota apprenticeship, you will achieve an industry approved qualification at the same time as gaining fantastic hands-on practical skills through a manufacturer backed scheme and earning a wage.

Kubota Group is a global manufacturer of construction plant.

Employing more than 35,000 people Kubota has a worldwide network in more than 110 countries.

“For Earth, For Life”

The Kubota Group promises to continue supporting the prosperous life of humans while protecting the environment of this beautiful earth.

What are the key benefits?

- ✓ Run by qualified instructors with industry experience
- ✓ Monitors your progress at work and at college to uphold and exceed all required national standards
- ✓ Gives apprentices additional soft skills to help in the workplace
- ✓ Works with a range of industry and awarding bodies to ensure that the content is relevant to the industry
- ✓ Includes manufacturer technical training at Kubota's training centre.
- ✓ Using a wide range of plant equipment you gain the practical experience at college to help you succeed in your apprenticeship

How do I apply?

Please discuss with your local Kubota dealer or contact one of the team below to get more information and register on the Kubota Apprenticeship Scheme.
